### **Introduction**

Dharmapuri is the most backward District in the state of TamilNadu. It also has less Christian population. So as a family we started our ministry in Dharmapuri. We selected a highly populated area and took a rented home. We went into the community and started sharing gospel by tracts ministry, by screening Jesus films, by doing wholistic Evangelism such as taking or guiding the sick to the hospitals, conducting free medical camps, by getting admission in free schools for the children who do not have the situation to study at home, providing needy children educational assistance such as fees, notebooks, school bags etc., by giving Christian counselling to the people with Depression. The people who got saved by these Wholistic Evangelism were gathered in our house Prayer cells, then into churches. By doing this we are leading them to grow in faith. We help believers to become disciples. We also encourage local leaders to do ministry by giving them trainings.
